Filed: August 13, 2003 (Int'l)

Art Unit: 1641

For: FLUORESCENT MAGNETIC
NANOPARTICLES AND PROCESS OF
PREPARATION

Examiner: P. Do

POWER OF ATTORNEY
AND CORRESPONDENCE ADDRESS INDICATION FORM

I hereby revoke all previous powers of attorney given in the above-identified patent/application on behalf of Tsinghua University.

I hereby appoint Practitioners associated with the Customer Number 25226 as my/our attorney(s) or agent(s) to prosecute the application identified above, and to transact all business in the United States Patent and Trademark Office connected therewith.

Please recognize or change the correspondence address for the above-identified application to the address associated with the above-mentioned Customer Number 25226.

The Tsinghua University is the Assignee of less than the entire interest. See 37 CFR 3.71. A statement under 37 CFR 3.73(b) is enclosed. The remainder of the right, title, and interest in the application is assigned to CapitalBio Corporation.

By executing this Power of Attorney, the Tsinghua University is allowing said Practitioners of the firm Morrison & Foerster LLP ("Morrison & Foerster"), to prosecute the above-referenced patent application and to prosecute any related matters that arise before the PTO in the

pa-1370383

enforceable life of any patent issuing from the above-identified application. Although this Power states that Tsinghua University is appointing said Practitioners with "power of attorney" for the sole purpose of prosecuting the matters arising before the PTO in connection with the patent application, that appointment is understood solely in light of Tsinghua University's ownership interest in the application. So, despite the use of the phrase "power of attorney," Tsinghua University and said Practitioners and Morrison & Foerster mutually agree and confirm that this executed power of attorney does not create any attorney-client relationship, actual or prospective, between Tsinghua University and said Practitioners and/or Morrison & Foerster, or, for that matter, between said Practitioners and/or Morrison & Foerster and any other person. CapitalBio Corporation will remain said Practitioners and Morrison & Foerster's sole client in respect of the subject patent application and any patent or patents issuing therefrom. Accordingly, said Practitioners and Morrison & Foerster understand, and my signature on the Power confirms, that said Practitioners and/or Morrison & Foerster have no attorney-client relationship with Tsinghua University, or with me personally, and that, notwithstanding this executed Power of Attorney, said Practitioners and/or Morrison & Foerster are free to represent any clients, and to take positions adverse to Tsinghua University in any current or future matter (whether involving business transactions, counseling, litigation or otherwise).

Dated: Nov. 17., 2009

Respectfully submitted,

By Kang Kejun
